

## **Letter of Recommendation**

This is with reference to the internship done by Mr. Nikhil Gupta here at King Mongkut's Institute of Technology Ladkrabang, Thailand.

Throughout his course of internship, Mr. Nikhil Gupta has shown great interest in practical aided learning techniques and their applications in real world. We engaged in several courses and research related discussions in which, he confidently talked about his aspirations towards higher education.

I was with him throughout these two months and have found him hardworking and fit for pursuing further courses in future from our university upon completion of his bachelor's degree.

Thus, he has my highest endorsement for admission into his desired course at our University. If you have any questions about this recommendation, please do not hesitate to contact me for I will gladly try to help.

I would love to recommend him to pursue Masters' programme in future from our university KMITL, Thailand.
